

NTACT

National Technical Assistance Center on Transition

State to State Sharing Sessions – team leaders will register team members for these sessions after May 27

NTACT staff and partners will host deeper discussions on specific topics as extensions of the Pre-Recorded Content Sessions for registered state team members. These State to State Sharing Sessions will provide 90 minute blocks for some additional content and sharing by state team members across the nation regarding challenges experienced and solutions applied. The Content Note Taking Resources used during the pre-recorded Content Sessions and the discussions on the Transition Coalition site will fuel the State to State Sharing Sessions.

If you are not registered for the CBVI, you will be able to access the recorded sessions at a later date at the same location as the pre-recorded Content Sessions.

The topics and schedule for the live sessions are listed below. All sessions will be hosted from 1:00 – 2:30 PM (Eastern) on the dates indicated.

June 15

Creating and delivering a continuum of career development and employment experiences for all students- identifying and addressing gaps in services
